TRUST FLEXITANKS ATTN: DIANNA ARELLANO

Good morning,

This is to confirm that Trust Flexitanks was onsite at CN Harvey Intermodal to complete a demonstration of a Trust flexitank filled to 22,000L and installed in a 20' container. During the demonstration, both crane and shunt truck maneuvers were executed to put stress onto the flexitank bladder and identify any potential concerns.

After numerous maneuvers were completed, CN can confirm the Trust flexitank demonstration was successful. The flexitank had no defects and we have no concerns for the product.
