

DECLARATION OF COMPLIANCE

Materials made from plastic intended to come into contact with food

Hereby we declare that the product “Trust Flexitanks Multilayer” complies with the legal regulations laid down in the following regulations:

- Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food.
- Commission Regulation (EU) No. 10/2011 of 14 January 2011, on plastic materials and articles intended to come into contact with food, including its latest amendment (EU) 2025/351.
- Commission Regulation (EC) No. 2023/2006 of 22 December 2006, on good manufacturing practice for materials and articles intended to come into contact with food, as amended by Regulation (EU) 2025/351.
- Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004, Commission Regulation (EU) 2024/3190 - Bisphenol A (BPA)
- Regulation (EU) 2025/40 Packaging and Packaging Waste Regulation, PPWR – PFAS content and total fluorine
- US Model Toxics in Packaging Legislation – PFAS content.
- US FDA 21 CFR 177.1520 – Olefin polymers for food contact applications.
- REACH regulation – Substances of Very High Concern (SVHC).
- Compliance with NIAS (Non-Intentionally Added Substances) assessment.
- European Directive 94/62/EC of 20 December 1994, on packaging and packaging waste.

F L E X I T A N K S

MIGRATION

When used as specified, the overall migration as well as the specific migration does not exceed the legal limits of the plastic material as a whole.

Overall and specific migration are determined in accordance with the European Regulation No. 10/2011 and amendment (EU) 2025/351.

The basic rules necessary for testing migration of constituents of plastic materials and articles intended to come into contact with food correspond to Annex V – Compliance Testing, and the list of simulants to be used corresponds to Annex III – Food Simulants, of Regulation (EU) No 10/2011, as amended by Regulation (EU) 2025/351 (effective 16 March 2025).

Tests performed:

- Overall migration

Performed with 10% Ethanol, 3% Acetic Acid, 95% Ethanol and Isooctane

- Specific migration of heavy metals

Performed with 3% Acetic Acid, 95% Ethanol and Isooctane

- Specific migration of primary aromatic amines

Performed with 3% Acetic Acid

- Specific migration of ethylene glycol and diethylene glycol

Performed with Rectified olive oil

- Specific migration of 1-octene

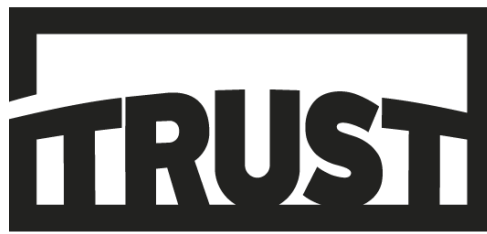

Performed with Rectified olive oil

- Specific migration of Octadecyl 3 – propionate (Irganox 1076)

Performed with 95% Ethanol and Isooctane

- Sensorial examination (odour and taste)

Performed with distilled water

FLEXITANKS

- Bisphenol A & PFAS content
- PPWR – Perfluoroalkyl and polyfluoroalkyl substances PFAS content
- PPWR – Total fluorine
- US FDA 21 CFR 177.1520
- SVHC (Substances of Very High Concern)
- NIAS (Non-Intentionally Added Substances)

SPECIFICATION OF THE INTENDED USE OR RESTRICTIONS

All substances with Specific Migration Limits (SMLs) used in the production of the product “Trust Flexitanks Multilayer” comply with the applicable requirements and are below the mandatory limits established in Regulation (EC) No 1935/2004, Regulation (EU) No 10/2011, and its amendment Regulation (EU) 2025/351.

Types of food intended to come into contact with the material:

- Vegetable oils and fats
- Animal oils and fats
- Liquified sugars, glucose and syrups
- Food additives
- Juices and juice concentrates
- Acid liquids (up to 10 % of acid)
- Alcohols (up to 20 % alcohol)
- Fatty acids
- Lactic acids
- Water

Conditions of use including duration and temperature of treatment or storage while in contact with the food:

- 10 °C up to 70 °C (short term use for 70 °C) → maximum 90 days of transport time.

SUPPLEMENTARY INFORMATION

The product is not intentionally treated by irradiation, fumigation or pesticides.

The product does not contain any intentional additives of the below referenced substances:

- mineral oil saturated hydrocarbons (MOSH)
- mineral oil aromatic hydrocarbons (MOAH)
- genetically modified organisms (GMO)
- nanomaterials
- allergens

If a functional barrier made from plastic is used in the mentioned product, we confirm compliance with the special stipulations set out in all regulations mentioned in this Declaration of Compliance.

This declaration replaces all previous ones relating to this subject.
